21" Stereo FSQ

This standard stereo TV combines good picture quality with stereo sound quality, including 2 speakers to disperse sound effectively in room. Also includes Contrast Plus for sharper pictures with more contrast and Teletext with 1 page memory. Without further extras so you don't pay for what you don't use. Antracite color make this descrete design. Great value for money.

Product Highlights

Black Line
TV tube technology using darker glass for better contrast and a narrow tube neck for better brightness in 21" models

Contrast Plus
A special electronic circuit has been incorporated into this television to enhance the darker portions of the picture for added realism and impraved picture quality.

Stereo
Two channel sound signal able to deliver different sound from left and right channels

RMS
The standard professional measure of sound output power. All our Tv's aremeasured in RMS with 10% Distortion. There are other terms than RMSwhich often show higher numbers but are not comparable.

Plug & Play
Having connected the tv , it automatically searches for all channels and installs them.

1 page Teletext
Teletext information available.

Front Connections
Connections for headphone and other inputs such as camcorder, front entry for ease of use
